MUSIC – MY WAY OF MAKING A MARK ON THIS WORLD!

The Good Ol' Days of Childhood

Born in the suburban bedroom of Long Island, Elmont, I quickly became familiar with the musical riches around me. With Tupac, Michael Jackson, and Big Pun my ideal, I started to compose music at 9. I believed that the goal to succeed is to be inspired by people whose mere existence can make a difference in your life!

Expanding the Musical Horizons

With my middle name also a stage one, I strive to tell people my story within the lyrics of my song. All of us are aware of how racial discrimination caused chaos in our world. With music as my ultimate tool, I want to inspire people and make them believe that love exists in this world.

Today, as I contemplate what I achieved, I still believe I have a lot more to accomplish. Today, I feel like performing on six different stages at SXSW for the first time was the most outstanding achievement of my musical career so far.

The Message in my Lyrics

One of my core competencies is that I stand up for everything right! Nothing would satisfy me more than people listening to me, believe in faith and love. These are the few things that embody my music and will continue to do so in the years to come!
